Subject: RE: Quick updates on Pre-RD/AECOM

Hi Davis.

I don't believe we need to keep them from getting into the water for Bathymetry survey next Tuesday due to a pending review of QAPP RTCs and finalization. While there are DQOs specified for Bathymetry in the QAPP, we didn't have any issues/comments with those.

The items to resolve before allowing them to get into the water are specific to the Programmatic HASP and their recently provided Task Specific Hazard Assessment. I will be sending those specific issues to you within the hour and I would expect those to be resolved rather easily by the Pre-RD Group.

Scott

Subject: Quick updates on Pre-RD/AECOM

Hi Everyone,

I just spoke to Ken Tyrrell on a few items.

1. QAPP – They expect to resubmit the QAPP by COB today. I communicated that the earliest day we can have the call will be on Tuesday if the review is straight forward, if not, it might be Wednesday.
2. Bathymetry – AECOM plans to get in water next Tuesday, given the QAPP is not approved, I informed Ken that they CANNOT get in water until the QAPP is approved. They will have to push the date out for the Bathy.
3. Next Monthly meeting – we are planning to have the next Monthly Meeting on 3/13 (tentatively next Tuesday before 1:30). The meeting will be a conference call and no attorneys needed. (at the moment)

Scott, please let me know if 3/13 work for you for the Monthly. Personally, I think they might prioritize the QAPP call over this given their intention to collect data.

Thanks,

Davis Zhen
